NORWICH INN

If you can't bring yourself to put life on hold for a full week, take heart. You can opt for a shorter stay at a destination closer to home like the Spa at Norwich Inn, in Norwich, Connecticut. Here it's easy to be pampered like a celebrity. You might want to try the

anti-aging cream that Gloria Estefan favors or the eucalyptus massage oil that Regis Philbin loves. Tucked away behind spring-fed ponds and venerable maple trees at the end of a winding country road, this charming New England inn makes it easy to put the real world on hold.
