

FACIAL TREATMENTS

In the privacy of your treatment room, you may discuss your current regimen and future goals. After examining your skin, your Esthetician may recommend a different facial than the one you initially selected. Extractions may be performed if needed during all facials except the Express Facial and the Luminous Signature Facial.

NOTE: Do not use Retin A or Renova based products 72 hours prior to a facial. Avoid exposure to heat or sun for two hours before and after these treatments.
